

## Hi Jim

We're here to make it easier to find great tradespeople, so welcome to the club. Our community of homeowners post 1,000,000 jobs a year with us, writing reviews about their experiences.

### Here's how our service works:

- 1**  
Post your job for free  
Up to 3 tradespeople can give you a quote
- 2**  
Read reviews and get advice  
Choose who to hire and arrange the work
- 3**  
Rate and review  
Job done - leave feedback to help other homeowners

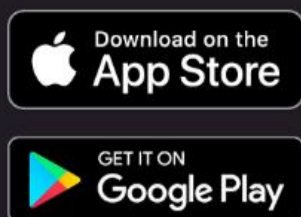

On average you'll get 1-2 quotes from tradespeople who are available to do the work. Check out their reviews and use our **homeowner checklist** to help you choose who to hire.

### Vetting and screening – our top priority

We vet tradespeople by verifying identity and contact details, while also screening them with a credit agency and 2 fraud prevention agencies.

Hi David,

It's been 24 hours and you haven't had a quote yet, so we've got some tips to attract more attention.

### Top tips for your job post

Tradespeople see a list of potential jobs, with the newest at the top, but you can push yours back to the top by updating it.

### Take photos

Add photos of the room or area where the work is happening. Photos make a big difference because tradespeople can visualise the job.

### Add information

Add more detail to your description if possible.

### Consider budget

Change the budget you set. You're not committing to anything here, but if the current budget is unrealistic, it might put tradespeople off.

Check out [our blog](#) about writing a great job post.

You can also have a look through the profiles of tradespeople in your area, and ask for a quote directly.

If you haven't done it already, update your job so more tradespeople can see it.

Add photos of the room or area where the work is happening so tradespeople can visualise the job.

Add more detail to your description if possible.

Change the budget you set. You're not committing to anything here, but if the current budget is unrealistic, it might put tradespeople off.
